Note : Maximum height recommended, without geogrid : 3 ft (0,91 m). Conditions apply to the maximum gravity wall height: Soil type is considered as gravel, or any soil type of equivalent stability (internal friction angle of the retained soil - 36 deg), there is no live load or no slope on the top of the wall. For walls higher than 3 ft (0,91 m), the use of geogrid is recommended. Please contact us for details.
